The College first joined the County Insurance Fund commencing on July 1, 2002 via parallel resolutions adopted by the College on June 5, 2002 (Resolution A/F 6) and by the Bergen County Board of Chosen Freeholders on June 19, 2002 (Resolution 1098). The County places its insurance policies, including the College's coverages under the County Insurance Fund, through Otterstedt Insurance Agency. The College is authorized to enter into a contract to participate in the County Insurance Fund pursuant to N.J.S.A. 18A:64A-25.40. Further, the College is authorized, pursuant to N.J.S.A. 18A:64A-25.10, to enter into a joint purchasing agreement with the County for, among other things, the purchase of insurance and insurance consulting services, which are exempt from bidding in accordance with the County College Contract Law, specifically N.J.S.A. 18A:64A-25.5(a)(11).

Resolution:
Continuing Education: Authorization to Approve Payment to Career Development Institute.

Submitted By
Dr. William Mullaney, Vice President, Academic Affairs
Ms. Christine Gillespie, Dean of Continuing Education
Mr. Paul F. Ragusa, Managing Director of Continuing Education

Action Requested
To authorize payment to Career Development Institute for Animal Control Officer and Animal Cruelty Courses Wildlife Rehabilitators, and Certified First Aid, CPR & Emergency Preparedness for Your Pets Continuing Education Programs.

Justification

The New Jersey Animal Control courses are approved by the New Jersey Department of Health and meet the requirement of the N.J.A.C. 8:23-A-2 .2 statute of appointment by a New Jersey Municipality. Additionally, these are the only ACO Courses whose graduates receive a certification for Incident Command Systems 100 & National Incident Management 700, by the National Wildlife Fire Coordinating Group, as well as Pet First Aid. The Wildlife Rehabilitators Course is approved by the New Jersey Department of Environmental Protection.

The Career Development Institute (CDI) is contracted to provide instruction and certification preparation for animal control officer (CD 072) and animal cruelty investigator (CD 071) training. This organization is the only vendor known to the NJ Department of Health and Senior Services (NJDOHSS), and the NJ Police Training Commission to provide this training in the State of NJ. The NJ DOHSS approves all training programs and candidates for the animal control officer and animal cruelty investigator certifications. A state representative indicated that approximately two thirds of this programming across the state is provided by CDI. The remainder of approved programming is provided by other colleges themselves. Bergen Community College is the only training site in the Bergen County region, and will be the only training site in the state for the Wildlife Rehabilitators and Pet First Aid/CPR/Emergency Preparedness programs..

The financial breakdown is as follows:

Program	% Revenue CDI	% Revenue BCC Per student
Animal Control	72%	28%
Animal Cruelty	72%	28%
Wildlife Rehab	73%	27%
Pet 1st Aid/CPR	64%	36%

The funds are to pay for curriculum and instructional services, as well as marketing, for these increasingly popular courses, which surpassed enrollment estimates last year. A total of $144,156 revenue has been collected since October 2012 with $103,792 being paid to CDI and Bergen retaining net revenue of $40,364 thus far.

The college has a need to procure these services through a non-fair and open process in accordance with the provisions of N.J .S.A. 19:44A-20.4. Career Development Institute has completed and submitted, a Political Contribution Disclosure Form and a Stockholder Disclosure Form in accordance with N.J.S.A. 19:44A-20.26 and a Business Entity Disclosure Certification in accordance with N.J.S.A. 19:44A-20.8, certifying that it has not made any reportable contributions to a political or candidate committee in the County of Bergen in the prior year, and that the contract will prohibit it from making any reportable contributions through the term of the contract. The Political Contribution Disclosure, the Stockholder Disclosure Certification and Business Entity Disclosure will be maintained on file at the College. (www.cditraininq.org)

These services are exempt from bidding in accordance with County College Contracts Law 18A:64A-25.5 (a) (2). (Extraordinary unspecifiable services).

Justification

Bergen Community College proposes an oral history and storytelling project in which adults share essays, journal entries, letters, and artifacts they have saved from their experiences learning a foreign language. **In Translation: Oral Histories and Stories from Language Learners** focuses on the English as a Second Language (ESL) adult student community at Bergen Community College Hackensack, but is open to anyone who has lived, worked, or studied abroad, whether they have struggled with or triumphed over a new language. **In Translation** will celebrate the wonderfully unique things that people create in their second language, in order to reveal stories about their lives. During the Phase I incubation period, a partnership will form with the Bergen County Historical Society and among three divisions at the College: the Ciarco Learning Center (CLC), the Center for Peace, Justice and Reconciliation (CPJR), and the Humanities Department. Faculty and students in American Ethnic Literature (a Humanities class) will mentor adult English language learners from the CLC to develop communication skills and prepare for the first of a series of live public storytelling events hosted by CPJR at the CLC in fall 2016. Phase II will expand the initiative; Audiences at the CLC will have an opportunity to view curated exhibits of significant objects and photographs that figured prominently in students' language learning experience. The community at large will have a range of opportunities to hear participant stories, view video presentations, and access a wide range of resources documenting learner experiences.

No college funds are required; although a 100% in-kind college match is needed. This is comprised of administrative and facility costs, project oversight, production support, and staff time as included in the budget.

Abstract
In Translation: Oral Histories and Stories from Language

Overview

Bergen Community College (BCC) proposes an oral history and storytelling project in which adults share essays, journal entries, letters, and artifacts they have saved from their experiences learning a foreign language. **In Translation: Oral Histories and Stories from Language Learners** focuses on the English as a Second Language (ESL) adult student community at Bergen Community College Hackensack, but is open to anyone who has lived, worked, or studied abroad, whether they have struggled with or triumphed over a new language. **In Translation** will celebrate the wonderfully unique things that people create in their second language, in order to reveal stories about their lives. During the incubation period, a partnership will form among three divisions at the College: the Ciarco Learning Center (CLC), the Center for Peace, Justice and Reconciliation (CPJR), and the Humanities Department. Faculty and students in American Ethnic Literature (a Humanities class) will mentor adult English language learners from the CLC to develop communication skills and prepare for the first of a series of live public storytelling events hosted by CPJR at the CLC in fall 2016. Audiences at the CLC will have an opportunity to view a curated exhibit of significant objects and photographs that figured prominently in students' language learning experience. Stories will be printed in a program booklet distributed to all attendees, captured on video and edited for broadcast on BCC's TV station. Finally, **In Translation's** project team will evaluate results and plan deeper oral history documentation leading to a Phase II series of storytelling events and exhibits in 2017.

In Translation aims both to encourage further understanding of language as a key component of cultural identity and to celebrate English language learners' interpretations of their own experiences. In Translation is needed to build knowledge about the experience of learning a language, from the perspective of diverse people. We are committed to generating knowledge from different cultural perspectives, on topics that would be meaningful to English language learners. Two key staff will implement the initiative. Ellen Feig has been conducting ethnic identity research around Canadian refugees for many years and became interested in how people perceive themselves in connection to their language. Marion Jacobson is a cultural studies scholar who is charged with marketing the CLC to the growing population of Bergen County residents desiring to improve their English and transfer to college and employment. **In Translation** is a natural offshoot of BCC's mission to make the CLC a vitally welcoming presence in the community.

A review of academic literature suggests this is an underexplored topic. Oral history is best suited to address proposed goals because language acquisition is a process, not an event. Oral history has been recognized by scholars as a way to increase accessibility to historical knowledge and increase motivation in pursuit of that knowledge (Olmedo, 1997). ESL instructors also recognize the value of oral histories as a method of not only making American history more relevant and inclusive to newcomers, but also increasing linguistic competence. Performance has real benefits for ESL learners as well as traditional college students who employ reading, speaking, listening, and writing skills as they hone their stories.

Justification

This project, ***No Man's Land: Dialogues on the Experience of War,*** intends to explore the intersection of World War I and the ongoing war in Iraq and, now, Syria. The focus on these wars will enable our program to address interests of our community, including a significant population of veterans from the Iraq war, a growing population of displaced Syrians, some of whom are now enrolled in Bergen Community College, and an Armenian diaspora concerned with raising awareness of genocide (ironically, many Armenian Syrians today have been displaced from the very spaces in Syria to which they were banished during World War I).

Most of the participants in our discussion groups will be military veterans, but seats will be open to interested members of the public, including non-combatants affected by war, military families and Bergen Community College students. A preparatory program will be conducted in the fall of 2017 and the first discussion group will launch during the spring semester, 2018. Our goal is to enhance the program and launch more discussion groups in fall, 2018 and spring 2019, for a total of five discussions. We believe that this number will lay the foundation for a sustainable, long-term program that can be expanded beyond the terms of the grant. Guest lectures, film screenings, art and photography exhibits will augment discussions. Many programs are already taking place as part of the ongoing initiatives conducted by the Center for Peace, Justice and Reconciliation and the Veterans' Center at Bergen Community College.

No college funds are required. The abstract is attached. The budget will follow.

Abstract

No Man's Land: Dialogues on the Experience of War

The proposed dialogue project will explore the intersection of World War I and the ongoing war in Iraq and, now, Syria. This focus addresses interests of the college community, including students who are veterans of Iraq and Afghan wars, a growing population of displaced Syrians, and an Armenian diaspora concerned with raising awareness of genocide (ironically, many Armenian Syrians today have been displaced from the very spaces in Syria to which they were banished during World War I).

The dialogue is augmented with literature: short fiction, poetry, and novels; visual art: film, photography, painting, installation and performance art, along with memoirs of war, and non-fiction discussions of trauma. These genres provide a mechanism for exploring how trauma often resists traditional notions of representation; that is, coming to terms with trauma often requires a process of imagining that gives rise to unique forms of expression. For example, discussions may explore how the emergence of the modern notion of trauma in World War I is also a trauma that occurred in the realm of literature and visual art, as traditional forms of expression gave way to modernism.

As the title of the proposal suggests, discussions will revolve around the sense of displacement occasioned by the trauma of violent conflict, for both non-combatants in conflict zones and combat veterans. Discussions will explore the challenges veterans and non-veterans with experience of war face in the aftermath of such conflict.

Our focus on World War I and on the war in Iraq and Syria provides an opportunity to explore how earlier wars condition and determine contemporary conflict. We will explore how traditional notions of patriotism, heroism, and glory gave way to the modern concept of trauma during World War I, and what this means for today's veterans and non-combatants as they struggle to express their own experience of war. Each of the five discussions will revolve around a unique set of sources drawn from different media. For each dialogue, we will select sources that encourage participants to make connections that are thematic, structural, personal, and historical.

To ensure that participants will engage with the discussion materials, we propose to use brief, targeted readings, along with concise renderings of visual art and film, for each dialogue. To meet the interests of our community, source material will focus heavily on American cultural expressions of the experience of war. Here is an example of what the content of one discussion might look like:

Phil Klay	"After Action Report" (short story)
Ernest Hemingway	"Big Two hearted River I" (short story)
Edward Kienholtz	*Portable War Memorial* (installation)
Lewis Milestone	*All Quiet on the Western Front* (film)
Leon Golub	*Mercenaries* (paintings)
Joe Sacco	*The Great War* (graphic novel)
Siegfried Sassoon	*A Night Attack* (poem
Sebastian Junger	*The Hurt Locker* (film)
Max Beckmann	*Night* (painting)
John Singer Sargent	*Gassed* (painting)

Submitted By:
Dr. Ursula Parrish Daniels, Executive Assistant to the President
Dr. William Mullaney, Vice President, Academic Affairs

Action Requested
Approve the attached Memorandum of Agreement between Bergen Community College and the Board of Education of the City of Englewood

Justification
Bergen Community College and the Englewood Board of Education have a long history of collaborating for the benefit of the students in the Englewood School District and the residents of the City of Englewood. The establishment of the Eagle Academy at Bergen would represent a new chapter in that partnership and a unique opportunity for the College to carry out its mission.

This new partnership would follow the model of the Applied Technology High School that was successfully launched at Bergen in the fall 2015 as a means to provide for a four (4) year, full-time, educational program that offers high-school level students a blend of academic high school curriculum, college classes and hands-on technical training. This new partnership would provide a similar blend of high school and college curricula that allow students to graduate from high school with a number of earned college credits, as well as experience in a number of professional fields through Continuing Education courses.

The establishment of a weekend college at Bergen Community College at the Meadowlands

Submitted By:
Dr. William Mullaney, Vice President, Academic Affairs
Dr. Naydeen Gonzalez-DeJesus, Vice President, Student Affairs
William Corcoran, Vice President of Facilities Planning, Operations & Public Safety

Action Requested
To approve the attached proposal that outlines the College's plans for the establishment of the Weekend College at the Meadowlands (WC@TM).

Justification
The Weekend College at the Meadowlands (WC@TM) is Bergen Community College's proposed program specifically designed for working students that enables them to earn a college degree in two years by completing classes only on weekends and via online learning. It is designed to appeal to a student population that the College has had difficulty reaching in the past. The short-term classes and cohort scheduling have been specifically designed to accommodate these students' schedules and facilitate their success. At the end of two years, the students will have earned an Associate's Degree in Professional Studies (AS.PS.GEN).

The details of the program, including its costs, are attached.

Weekend College at the Meadowlands

Weekend College at the Meadowlands (WC@TM) is Bergen Community College's program specifically designed for working students that enables them to earn a college degree in two years by completing classes only on weekends and via online learning.

WC@TM is for students who are self-motivated and able to handle the demands of an accelerated program with a combination of online, hybrid and face-to-face classes. By enrolling in WC@TM, students become part of a cohort that provides them with the support they need to succeed academically. Because the program only requires students to come to campus on Saturdays and Sundays, it allows them to balance their work and family responsibilities with their education.

Each semester WC@TM students are able to enroll in five classes, one of which will be fully online. The other four classes are offered consecutively over three weekends (with a weekend off between classes) using a combination of face-face and hybrid formats. These classes run from 9:00am-3:30pm on Saturdays and Sundays at our beautiful Lyndhurst campus. WC@TM students also have a designated advisor at the Meadowlands to provide them with academic support, as well as tutoring support available online and in-person.

Resolution

Authorize submission of a grant proposal in the amount of $20,000 to the New Jersey Council of County Colleges in partnership with The Prudential Foundation to support high quality dual enrollment programming, and to authorize President B. Kaye Walter, or her designee, to execute required documents.

Submitted By

Dr. William P. Mullaney, Vice President of Academic Affairs
Dr. David Eichenholtz, Associate Dean of College/High School Partnerships
Dr. William J. Yakowicz, Director, Grants Administration

Justification

The purpose of the "College Credit Now" program is to provide low-income 11th and 12th grade students with the opportunity to take college-level courses while still in high school. Priority will be given to low-income students. Those students on free or reduced school lunch meet the financial requirement. The project will enable Bergen Community College to enhance and expand its current Dual Enrollment program. Economically eligible 11th and 12th students who have achieved college ready status, as determined by the ACCUPLACER placement exam, the PARCC exam, or another method or instrument of the college's choosing will be qualified to participate. Approximately twenty financially eligible college ready students from partner high schools will gain access to a college credit course relevant to their personal and academic strengths, at no cost to them. Grant funded project activities and expenditures must be concluded and accounted for by December 31, 2016.

No college funds are required.

The project abstract and final budget are in preparation.
