Board of trustees position is a great opportunity to share our experience (of leadership, volunteering and participation as a student in indoor and outdoor college activities that play an important role in college prosperity) with students and other members of the board of trustees to bring a big change in our students' lives. As a student in Bergen Community College, I participated in many activities, for example,college leads, SAGA membership, Phi Theta Kappa and honor society membership and working as the active member for the operation team of the Phi Theta Kappa, having research for different projects in the STEM club and leadership. Therefore, I can be a good example for students of how they can perform well in education while participating in indoor and outdoor College activities.Moreover I went through different kinds of cultural and educational experiences as a foregine student. Therefore, I can share my experience in this regard with students who are going through the same experiences. Therefore, being a member of board of the trustees, I can help Student Government Association to remove all those difficulties that a new student experience by sharing my experience and point of view according to students needs.More, I can help in how we can move toward perfection by improving our old strategies by introducing new strategies that can bring not only global success in education field but also for our students.To do so, we need to participate in each board meeting where we can share our point of view and participate decision not only with other members of trustee but also with the president and E-board member. Therefore, I acknowledge that I will pay attention in participating each meeting that will bring success and prosperity for our students.
